

# A blog article

We provide you with a bespoke article ready to be shared on your channels. We highlight your workplace culture, recent achievements and awards, including a quote from one of your leaders, your preferred survey stats results, a quote from Cathal Divilly, CEO at Great Place to Work, and more.

## AbbVie again Certified™ as a Great Place to Work!

08.11.2022

We at AbbVie are delighted to announce we have been Certified™ as a Great Place to Work for the ninth consecutive year. **Great Place to Work®** is the global authority on workplace culture, helping organisations quantify their culture and produce better business results by creating a high-trust work experience for all employees. The Great Place to Work certification is achieved through an in-depth employee survey and a culture audit assessment of each organisation's policies and practices.

AbbVie was founded in 2013 and alongside five manufacturing facilities in Cork, Dublin, Sligo and Mayo, three offices in Dublin serve the needs of the company's Commercial, Supply Chain and Operations activities. We employ almost 2,600 people across Ireland in a number of therapeutic areas, including immunology, oncology, virology, aesthetics, neuroscience and eyecare.
